About

A Developer and Designer with a strong focus on user experience and attention to detail. From integrating APIs to crafting visually appealing designs, I strive to create seamless digital media.

Education

Digital Design and Development Diploma
British Columbia Institute of Technology
Sept 2022- May 2024

Design and Development Experience

Haven | Front-End Developer, UX/UI Designer
Jan 2024 – March 2024

• Designed and developed an application that utilizes API's to display adoptable pets and charity data

• Created wireframes and implemented automated end-to-end tests for the app interface

Solar | Graphic Designer, Front-End Developer
Feb 2024

• Designed and developed an application that displays current day weather and a 5 day forecast for any city

• Created the website logo and the icons for each weather condition

WhatSupper | Front-End Developer
Sept 2023 – Dec 2023

• Expo application that generates meal plans for low-income individuals through scanned grocery fliers

• Integrated OCR with Open AI for recipe generation, and used Firebase to store user scan history

Recyclonaut | Front-End Developer, UX/UI Designer
Feb 2023 – May 2023

• Designed and developed a quiz application about encouraging individuals to build good recycling habits

• Created space-themed graphics and wireframes for the quiz storyline
